

Part 7. Centers of Excellence

[9-2-601]. 63-38f-701. Purpose.

- (1) *(a)* The Legislature recognizes that the growth of new industry and expansion of existing industry requires a strong technology base, new ideas, concepts, innovations, and prototypes.
- (b)* These generally come from strong research colleges and universities.
- (c)* Technical research in Utah's colleges and universities should be enhanced and expanded, particularly in those areas targeted by the state for economic development.
- (d)* Most states are enhancing their research base by direct funding, usually on a matching basis.
- (e)* The purpose of this part is to catalyze and enhance the growth of these technologies by encouraging interdisciplinary research activities in targeted areas.
- (f)* The Legislature recognizes that one source of funding is in matching state funds with federal funds and industrial support to provide the needed new technologies.
- (2) The Legislature recommends that the governor consider the allocation of economic development funds for Centers of Excellence to be matched by industry and federal grants on at least a two-for-one basis.
- (3) *(a)* The Legislature recommends that [such] *the* funds be allocated on a competitive basis to the various colleges and universities in the state.
- (b)* The funds made available should be used to support interdisciplinary research in specialized Centers of Excellence in technologies that are considered to have potential for economic development in this state.
